

ETCAL Level 2 Extended Certificate in Engineering Principles

601/8073/0

Overview

Qualification aim

The Extended Certificate is for those who wish to work in or want to work in the manufacturing engineering environment and will provide opportunity to:

- Develop knowledge and understanding
- Develop a range of specialist skills
- Achieve a stand-alone qualification
- Develop personal growth through learning

Assessment

In order to achieve this qualification a learner must complete all units as mandatory. The assessment criteria determine the standard required to achieve each unit and allow for a variety of assessment methods to be used as appropriate to the environment the qualification is delivered in. There is no examined assessment element in this qualification.

Learners must achieve a minimum of 30 credits to gain the qualification. 15 credits must be achieved by completing the 5 mandatory units as found in the Assessment Guide.
