

ETCAL Level 2 Certificate in Manufacturing Practices
601/7648/9
Overview

Qualification aim

This qualification seeks to allow candidates to learn, enhance and apply the skills required for employment and/or career

progression into or within the manufacturing sector. The principal objective of the qualification is to offer the opportunity to display competence of industrial practices and comprehension of such, and to recognise the ability of individuals working in the sector

Assessment

In order to achieve this qualification a learner must complete all units as mandatory. The assessment criteria determine the standard required to achieve each unit and allow for a variety of assessment methods to be used as appropriate to the environment the qualification is delivered in. There is no examined assessment element in this qualification.

Qualification Number		601/7648/9
Title		Manufacturing Practices
Unit Level		Level 2
Guided Learning Hours		56
Total Qualification Time		130
Unit Credit Value		13
Unit Grading Structure		Pass

Learners must achieve a minimum of 13 credits to gain the Certificate in Manufacturing Practices. 10 credits by completing the 3 mandatory units and the remaining 3 credits by completing at least one of the 3 optional units
