

Level 1 Certificate of Introduction to Lean Techniques

Qualification aim

This qualification informs and guides learners through the process of understanding and contributing to lean processes and their impact. It provides a structured individualised route with knowledge and skills to underpin lean principles in a range of potential environments.

Qualification introduction

This qualification is made up of four mandatory units that will help learners to develop an understanding of the efficient ways of working and how to identify improvements and their impact. Its mandatory units are a step by step process to introduce learners to the lean process and how this can be utilised in a range of circumstances. Learners who complete the units will be equipped with the knowledge, skills and resources to contribute towards a continuous improvement system.

Assessment

In order to achieve this qualification a learner must complete all units as mandatory. The assessment principles determine the standard required to achieve each unit and allow for a variety of assessment methods to be used as appropriate to the environment the qualification is delivered in. There is no examined assessment element in this qualification.

Progression

On completion of this qualification learners will be prepared to progress to level 2 qualifications in a range of occupations within the sector, this could include but not limited to apprenticeships.

Qualification Number		603/3455/1
Qualification Framework		RQF
Title		Certificate of Introduction to lean techniques
Qualification Level		Level 1
Guided Learning Hours		155 GLH
Total Qualification Time		160 TQT
Qualification Credit Value		16 Credits
Qualification Grading Structure		Pass / Fail

Unit Title	GLH	TQT	Credit Value	Grading
Understanding the industry	30	30	3	Pass / Fail
Health and safety	40	40	4	Pass / Fail
Fundamentals of continuous improvement	45	50	5	Pass / Fail
Problem solving	40	40	4	Pass / Fail
Total	155	160	16	Pass / Fail
