

Level 1 Certificate/Diploma in Supply Chain and Logistics

603/4616/4

603/4621/8

Qualification aim

These qualifications inform and guide learners working or wishing to work in logistics, warehousing and storage facility within the logistics sector.

Qualification introduction

The qualifications are made up of four mandatory units and a variety of optional units that will help learners to develop an understanding of what is available and relevant to their capabilities and aspirations. The mandatory units are a step by step process to provide a suitable foundation to enable individuals to demonstrate their competence and understanding against a set of optional units based on the needs of the industry. Learners can achieve either a certificate or diploma depending on how they combine the optional units available.

Assessment

In order to achieve either qualification a learner must complete all four mandatory units as well as a combination of optional units. The assessment criteria determine the standard required to achieve each unit and allow for a variety of assessment methods to be used as appropriate to the environment the qualification is delivered in. There is no examined assessment element in this qualification.

Progression

On completion of either qualification learners will be prepared to progress to level 2 qualifications in a range of occupations within the sector, this could include but not limited to apprenticeships.

Achievement

Certificate - Learners must achieve a total of 18 credits, 12 credits by completing the 4 mandatory units with the remaining 6 credits being achieved through any combination of the 9 optional units.

Diploma – Learners must achieve a total of 37 credits, 12 by completing the 4 mandatory units with the remaining 25 credits being achieved through any combination of the 9 optional units.
