

ETCAL Level 2 Certificate for Manufacturing Operatives

603/5408/2

PURPOSE STATEMENT

This qualification is aimed at learners who wish to enter the manufacturing sector with an understanding of the industry and the requirements of the role and may be interested in building a career over a period of time in the sector

In order to achieve this qualification a learner must achieve 13 credits by completing the 4 mandatory unit(s). The completion of these units will aid the learner in developing knowledge and practical skills, these include statutory regulation and safety requirements across units focussed on manufacturing processes and products.

On completion of this qualification learners will be prepared to progress to level 2 Certificates / Diplomas or a level 2 qualification in a range of occupations within the sector, such as:

- ETCAL Level 2 Business Improvement Techniques
- ETCAL Level 3 Business Improvement Techniques
- ETCAL Level 2 Diploma in Manufacturing Operations (forms part of the new Lean Manufacturing Operative apprenticeship standard)

This qualification may be suitable to be completed alongside other eta qualifications such as:

- ETCAL Level 1 Certificate in Securing Employment
- ETCAL Level 1 Certificate in Securing Progression.
