

ETCAL Level 1 Certificate of Introduction to Construction
600/3454/X
Structure

Qualification aim

This qualification informs and guides learners through the process of understanding and securing employment in the Construction sector. It provides a structured individualised route with knowledge and skills specific to the sector and how it operates.

Qualification introduction

This qualification is made up of four mandatory units that will help learners to develop an understanding of the labour market and how best they can enter and secure employment relative to their capabilities and aspirations. Its mandatory units are a step by step process to prepare, source and secure employment in the sector. Learners who complete the units will be equipped with the knowledge, skills and resources to initiate and remain engaged with employment that suits their circumstances.

Assessment

In order to achieve this qualification a learner must complete all units as mandatory. The assessment criteria determine the standard required to achieve each unit and allow for a variety of assessment methods to be used as appropriate to the environment the qualification is delivered in. There is no examined assessment element in this qualification.

Progression

On completion of this qualification learners will be prepared to progress to level 2 qualifications in a range of occupations within the sector, this could include but not limited to apprenticeships.
