

ETCAL Level 3 Lean Six Sigma Green Belt
603/7471/8

Qualification aim

This unit provides the structure and detail required to deliver a Lean Six Sigma project along with the requirements to achieve a Green Belt in Lean Six Sigma Techniques.

Qualification introduction

A learner may already have or be working towards the **Level 3 Business Improvement Techniques (Knowledge or Competence) or Level 3 Improvement Technician Standard**. If they achieve any of these qualifications, they may be able to map their achievement to this **Green Belt** using the Qualifying Principles and Descriptors below. If a learner is not working towards a relevant qualification, they will be required to meet the specifications as detailed below.

Assessment

To achieve this **Green Belt** the learner needs to demonstrate that they can meet all the Qualifying Principles. The descriptors determine the standard required to achieve the unit, through a variety of assessment methods appropriate to the assessment environment.

Progression

On completion of this qualification learners will be in a position to progress to a level 4 option.

Achievement

Learners must complete the one mandatory unit to achieve the qualification.

Unit Reference Number		D/618/7051
Qualification Framework		RQF
Title		Lean Six Sigma Green Belt
Qualification Level		Level 3
Guided Learning Hours		80 GLH
Total Qualification Time		120 TQT
Qualification Credit Value		12 Credits
